Speech-Making in the Evening.

WASHINGTON, Tuesday Feb. 6, 1866.

MR. SUMNER'S SPEECH.

Senator Sumner concluded his great effort at 2:30, having commenced at 1. Diplomats, two Cabinet Ministers and a much larger number of Congressmen than yesterday were on the floor, while all the galleries and approaches were densely packed with attentive listeners. As the argument of the speaker culminated, he became grandly eloquent, and his elaborate plea, which might rather be denominated an essay, than a speech, for negro enfranchisement, unquestionably made a profound impression upon every intelligent listener. At its conclusion the floor and galleries broke forth in applause.

CONFIRMATIONS.

Order being restored, the Senate went into a short Executive Session, making sundry confirmations of the most important of which was that of Gen. Fitz Henry Warren of Iowa as Minister Resident at Guatemala.

GEN. ROUSSEAU AS A SENSATIONIST.

A sensational effort was made by Gen. Rousseau, wherein he essayed the slandering manners of days gone by. In responding to a speech delivered yesterday by Mr. Grinnell of Iowa. This breach of Parliamentary decorum, and the prevailing good temper of Congress, inspires more sincere regret than apprehension, however.

THE VIRGINIA BOUNDARY LINE.

A spirited discussion arose just prior to adjournment as to admitting two more counties into West Virginia, upon which the vote stood 113 to 24.

ORDER FROM GEN. GRANT.

An order was to-day promulgated by Gen. Grant revoking all orders heretofore issued requiring that transportation be furnished to fugitive soldiers.

ENGLISH SYMPATHY WITH FREEDMEN.

Notwithstanding the Peckniffian expressions of sympathy for the freedmen of this country indulged in by our English friends, it is gratifying to know that there is at least one Association on the other side of the water, the sincerity of whose professions is proven by its frequent and liberal contributions to the Freedmen's Bureau. The Society referred to is the Birmingham (England) Association, which for some months past has forwarded to the Secretary of War, for transfer to the Freedmen's Bureau, large quantities of clothing and other stores for the destitute freedmen of the United States. The last invoice just received by the War Department from this benevolent Association amounts in value to \$6,600.

SALE OF ORDNANCE AND LUMBER.

TREASURY REGULATIONS.

The following important rules and regulations, duly approved by the Secretary of the Treasury, were issued by Treasurer Spinner to-day:

TREASURY DEPARTMENT, TREASURER'S OFFICE,

WASHINGTON, Jan. 31, 1866.

The rules adopted for the redemption of fractional and other United States notes that from whatever cause have become unfit for circulation, contemplate and require the cooperation of all National Banks that are designated depositories in the work of redemption, except such notes as by the rules of the Department are designated and described as mutilated, and by the value mutilated in meant notes not worth their full face value. Some of these banks do not seem to have understood, or have been unwilling to accept this duty. Now to furnish to holders of money which ought to be retired from circulation more ample means for the redemption or exchange of defaced United States notes and fractional currency, and such notes as by said rules are designated as mutilated, and subject therefore to discount at the Treasury, the following additional rules and regulations have been adopted:

Whenever a holder of any worn postal currency shall present to an Assistant Secretary of the United States Treasury, or a National Bank that is a designated depository of the United States, notes which in the aggregate shall be of the nominal value of \$50 or over, which notes shall have been carefully assorted, stripped, labeled, and then put up in one parcel, in conformity with the rules approved by the Secretary of the Treasury April 21, 1863, for the redemption of such notes, it shall be the duty of such officer or bank to receive such parcel of notes and give the owner thereof a receipt therefor for the proceeds of such parcel when returned to the Treasurer of the United States. Such parcel must be securely done up, with the owner's name, the amount claimed, and the date plainly written thereon.

The officer or bank receiving such parcel will make them into packages containing as near \$1,000, or its multiple, as may be, and write upon such package the name of the bank or person owning the same, and the amount contained therein, and state on the outside of each package "Forwarded under contract with Adams Express Company to the Treasurer of the United States, Washington, D. C." In making up these packages care must be observed to prevent the loss of any of the notes, and amounts much less than \$1,000 should be avoided, because the contract for transportation establishes prices by the \$1,000, and the cost of carrying \$1,000 under that contract would be double the cost of carrying

Package must be delivered for transmission to the

NEW-YORK, WEDNESDAY, FEBRUARY 7, 1866.

ADAMS EXPRESS COMPANY.

Adams Express Company, or to such express companies as shall have formed connections with the Adams Express, notices will be made for the value of remittances as soon as the notes can be counted at the Treasury, either by check on New-York, Boston or Philadelphia, or in new notes sent by express free of charge, as the party remitting may prefer. In the event of error, having been discovered, will be returned with the errors and counterparts noted thereon. By this plan large sums can be sent to the Treasury for redemption which the labor of counting by intermediate agents of the Treasury and without cost to holders, but officers and banks, whose duty it is to receive and issue, will continue to redeem small sums of currency at their counters whenever they have Government funds in their hands. Under these regulations any public officer, bank, corporation, firm or individual may also send to the Treasurer of the United States by express, packages of currency for redemption, free of expense to the owner, by observing carefully and strictly all the instructions herein contained, so as to bring the same within the contract of the Department with the Adams Express Company, and by following the rules before mentioned for assorting, stripping, and labeling the parcels composing packages. All mutilated currency, subject to discount, sent to the Treasury for redemption, should be placed in separate parcels, and marked "mutilated." It will be gratifying to the interest of parties remitting mutilated currency, which has been torn into two or more pieces, to restore the form of such mutilated note as near as may be, by pasting the fragmentary portions of the respective notes on slips of paper of the size and form of the original notes. But all piecing or mending of mutilated currency with fragments of other notes is prohibited, and no allowance will be made for such fragments. The mutilated portions of one original note, in ascertaining the value of mutilated notes at the Treasury. No National Bank notes whatever, mutilated or not, are redeemable by the Treasurer, unless they are the notes of the National Bank, which issued them. It is not advisable to send parcels of money to the Treasury by mail, but those who choose to incur that risk need not pay postage on parcels so forwarded to the Treasury. All communications by mail addressed to the Treasurer of the United States, Washington, D. C., will come free under the law. F. E. SPINNER, Treasurer U. S.

RESULT OF THE MILITARY COUNCIL.

The Military Council of Major-Generals recently in session at Gen. Grant's Headquarters has submitted its report to the Chairman of the Military Committee. It is said that they make several suggestions unfavorable to the admission of the volunteer officers into the Regular Army, and recommend various changes in the Regular Army Bill. It is also understood that they recommend the increase of the number of cadets by 150 in order that each State may have two cadets—75 to be appointed from the sons of officers and soldiers who have been killed in the service.

TO THE ASSOCIATED PRESS.

WASHINGTON, Tuesday, Feb. 6, 1866.

ARRANGEMENTS FOR THE OBSEQUES OF MR. LINCOLN.

It should be stated that in making the arrangements for the obsequies of the late President Lincoln on the 17th inst., it was ascertained that the hall of the House of Representatives was not large enough to accommodate the large number of persons. Each member of the Senate and House will be entitled to five tickets only for distribution. This number will fill the entire hall and no other persons, excepting those holding tickets, will obtain admission to the Capitol building.

MR. HAYS'S REPORT.

Secretary McCulloch, in sending to the House to-day the report of S. S. Hays of the Bureau of Finance, the financial system, the creation of a sinking fund, and taxation in general, says, in an accompanying letter that Mr. Hays's views are fully and clearly presented in the report. He says that it is gratifying to find that it is due to that gentleman that his report should be printed and carefully considered by Congress.

INTERNAL REVENUE RETURNS.

It is known that many persons render their receipts to the officers of internal revenue on a gold basis, but pay their taxes on their amounts in paper, and that while bonds of railroad companies held by citizens in this country are exempt from the holders and are exempt from the tax, Mr. Morrill, Chairman of the Ways and Means Committee, has prepared a bill to remedy these defects, and it will probably be passed to-morrow.

The land cost \$127,000, twenty acres of improvements including the dry dock, \$1,871,335, and the building and machinery \$1,871,335.
